

Ensuring That No Child is Left Behind

Our standards-based instruction, which includes Readers Workshop, Writers Workshop and Math Investigations, combines the best teaching strategies and enables students to meet district, state and national standards. Students may also participate in various enrichment activities:

- Super Science Day
- Rainforest Alliance
- Junior Master Gardener Program
- Sunshine Math
- Art Club
- Science Fair
- Academic Family Nights
- Book Clubs
- Chess Club

Greenfield Elementary School's winning combination of successful academics, science, nurturing atmosphere and community support makes our school your best choice!

Greenfield ELEMENTARY SCHOOL

Academic Enrichment through Sciences

It All Starts With Academics Through Sciences

Our vision at Greenfield Elementary is to instill lifelong learning in our students and faculty in a safe and nurturing environment. We strive to meet the needs of our community through our students and families.

The Academic Enrichment through Sciences Magnet Program at Greenfield is enhanced by features such as small-group remediation, a peer tutoring program, in-school tutoring and a focus on the science curriculum. Students will participate in environmental activities like creating and maintaining a butterfly garden and vegetable garden, using microscopes and recycling. Science will come to life as students learn about careers in science through science-related field trips.

Students are challenged by other programs such as Destination Success, FCAT Explorer, Accelerated Reader, the Sunshine Math Program, cooperative learning techniques and hands-on experience with manipulatives. As a parent resource center for CSS students, we also provide resources and materials to inform parents about Autism Spectrum Disorder.

Golden School Award

Greenfield Elementary has won the prestigious Golden School Award for over ten consecutive years. This award recognizes a high level of volunteer and faculty involvement. To complement these efforts, we've combined academic excellence with a wide variety of programs to enhance the entire educational process:

- Very active volunteer program for parents, grandparents and community members
- Business partnerships
- Daily and weekly parent contact
- Student planners to keep parents informed of school activities and daily assignments
- Active Parent and Teacher Association (PTA) and School Advisory Council (SAC) to support students and the school
- Extended Day program before and after school
- Quarterly academic recognition ceremonies

Greenfield Values

At Greenfield Elementary, we are proud of our leading edge technology. We are a totally deployed school with a wireless LAN, which allows all computers to connect to the Internet and server via a wireless system. Teachers can communicate via websites that utilize Internet resources to augment instruction. Students may access the Internet resources and services via classroom computers and from home computers.

It is our vision at Greenfield Elementary to instill lifelong learning in our students and faculty in a safe and nurturing environment. We strive to meet the needs of our students, families and community. Our standards-based classrooms will ensure that NO child is left behind.
