Creating world-class students – and global citizens.

Lake Shore Middle School is more than a school. It's a place where children grow their minds, bodies and imaginations, and learn to see the world for the possibility-rich place it is.

The school's educational programs reach students of all levels – including those with trainable mental handicaps and autism. This welcoming and cooperative spirit makes Lake Shore Middle School an exceptional place to learn and grow.

Preparing students for a changing world: the International Baccalaureate Middle Years Programme
