- Cosmetology Academy

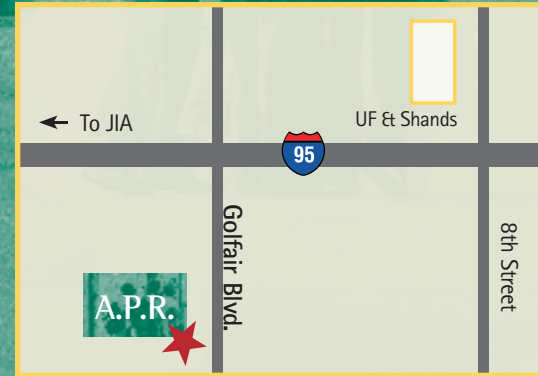

DCP132149

OUR ACADEMIES

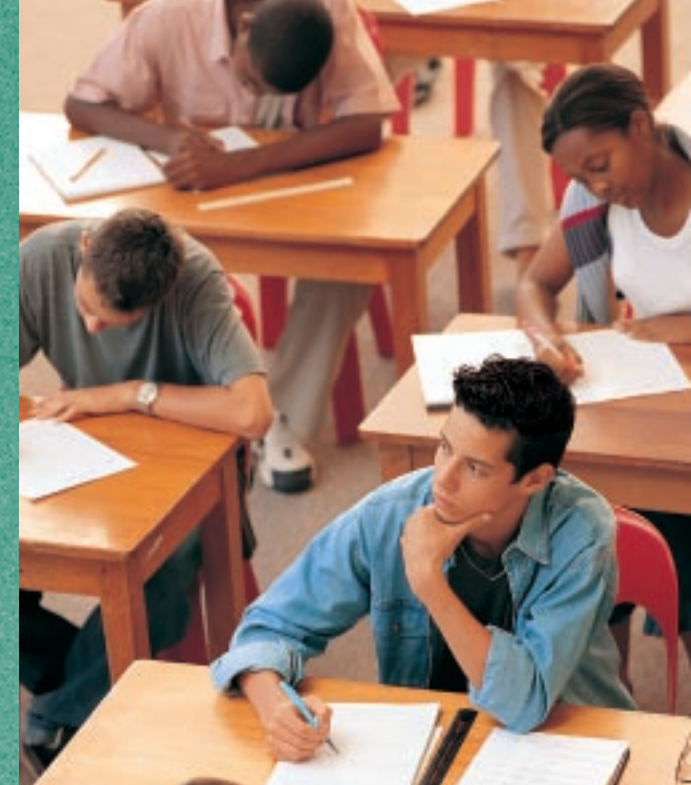

Students of A. Philip Randolph Academies of Technology are held to high academic standards. Scholarship opportunities are available, and we encourage students to apply for them. In keeping with the goals of our school, we expect students to follow both industry and workplace codes of ethics.

MISSION STATEMENT

A. Philip Randolph Academies of Technology is a unique high school dedicated to student achievement through rigorous academic and career preparatory programs.

Take I-95 north toward Jacksonville International Airport. Exit on Golfair Boulevard then turn left, going under the overpass. Travel approximately one mile, and the school will be on the right, at 1157 Golfair Boulevard.

THE BEST CHOICE FOR CAREER PATHWAYS AND COLLEGE PREPARATION

At A. Philip Randolph Academies of Technology, we believe students should be fully prepared to pursue either a college education or a career path of their choice. The goal of our magnet program is to combine a strong academic curriculum with practical, hands-on career preparation.

Randolph provides outstanding training to all students, whatever their chosen direction. Many graduates elect to remain employed at their on-the-job training location, while others pursue higher academic training at the post-secondary level.

INFORMATION TECHNOLOGY/ COMPUTER SCIENCE ACADEMY

This exciting and innovative program prepares students for both college and careers in computer technology. The curriculum offers courses in several pathways which include computer maintenance, programming, network infrastructure, computer applications, digital imaging and website development. Upon completion of these courses, students will have an opportunity to receive the following industry certifications:

- CompTia A+ (Computer Maintenance)
- CompTia Net + (Networking)
- MCP (Microsoft Certified Professional)
- MCDST (Microsoft Certified Desktop Support Technician)
- MCSA (Microsoft Certified Systems Administrator)
- ACA (Adobe Certified Associate: Photoshop, Illustrator, Dreamweaver, Flash)
- CCENT (Cisco Certified Entry Networking Technician)
- CCNA (Cisco Certified Network Associate)
- IC3 (Internet and Computing Certification)

Students Transitioning to College Can:

- Take advantage of a wide variety of programs, from certifications to two-year degrees.
- Transfer credits to a university program.
- Receive college credit for industry certifications.

Students Transitioning to a Career Can:

- Take advantage of immediate job opportunities.
- Receive internships with major corporations.
- Co-op in the IT field while in high school.
- Gain experience working on or with computers at certified training sites.

ENERGY, MANUFACTURING AND CONSTRUCTION ACADEMY

From energy, to manufacturing, to construction, the opportunities are limitless at A. Philip Randolph Energy, Manufacturing and Construction Career Academy (EMC). Three key industries are joined together to prepare students for a wide variety of challenging and rewarding careers vital to our economy.

The career opportunities in each of these diverse industries are virtually endless in all skill and education levels. Students can choose from numerous career specialties, varied engineering disciplines, management, to working on the front line. Whether they're interested in working immediately after high school graduation, or entering a two- or four-year educational institution, or both – employers at companies such as JEA, IBEW, NEFBA, NFMA, Jax Academy of Electrical Technology, Masonry Apprentice & Education Foundation and The Haskell Co. will welcome them because of their skills. All EMC students have the opportunity to participate in the ACE mentoring program. Students who successfully complete the program are registered nationally with the NCCER and also receive a Career Safe OSHA Safety certificate.

HEALTH SCIENCE ACADEMY

Our nation is in great need of well-trained health care workers, which is why the A. Philip Randolph Academies work closely with local health professionals to teach students skills for employability. Training in professionalism, ethics, critical thinking, technology and patient care enhance their employment opportunities. Working with major acute-care hospitals and long-term care facilities, our Health Academy helps students make the connection between academic and workplace learning. Additional opportunities for workplace experience are available through the Explorers Program. Students are trained in and can earn certification in First Aid and CPR annually. Also, students graduate with certification as a Nursing Assistant and training in Allied Health, Home Health, EKG and Health Unit Coordinator.

Representatives from the health care industry, including the Mayo Clinic, Baptist, Memorial and St. Vincent's Hospitals, sit on our advisory council. Their expertise helps us to provide students with the latest experience and knowledge in the health field so they can make informed career choices.

FIRE AND RESCUE ACADEMY

A. Philip Randolph has partnered with the Jacksonville Fire and Rescue Department to create our Fire and Rescue Career Academy. It prepares students for a thrilling career in firefighting or Emergency Medical Services. Students enrolled in the Academy have the opportunity to participate in the Explorers Program and gain hands-on real world experience. This academy articulates into post-secondary education.

PUBLIC SAFETY/ CRIMINAL JUSTICE ACADEMY

In partnership with the Jacksonville Sheriff's Office, our Public Safety Academy trains students for the Criminal Justice and Homeland Security Program at Florida State College at Jacksonville. The Explorers Program gives students in the Public Safety Academy the opportunity to explore careers in this exciting career field as well as earn hands-on real world experience.

In addition, Randolph Academies and its criminal justice instructor are licensed by the State of Florida to certify students for completion of requirements for an unarmed security guard license.

COSMETOLOGY ACADEMY

The A. Philip Randolph Cosmetology Academy prepares students for employment as licensed cosmetologists, registered nail specialists or registered facial specialists. Instruction is designed to help students pass the Florida cosmetology license examination or industry certification.

The cosmetology program educates students with skills in communication, leadership, human relations, employability and entrepreneurship. It also places emphasis on safe and efficient work practices, Florida cosmetology law and rules and AIDS education. Other topics include relevant chemistry, bacteriology, anatomy and physiology, as well as the art of makeup and both the manipulative and electrical techniques required for cosmetology careers. Industry certifications include Nail Technology, Facial Technology and Cosmetology.
