

The Julia Landon College Prep Experience

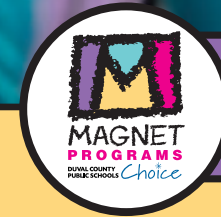

The Julia Landon College Prep experience is marked by the rigorous pursuit of excellence in academics and leadership development. The program is led by an outstanding faculty with a full commitment to the success of our students. Although a college preparatory curriculum is unusual in a middle school, we believe it is never too early for highly motivated students to start on the path to superior achievement.

Teaching Tomorrow's Leaders Today

At Julia Landon College Preparatory and Leadership Development School, our mission is to prepare students for college and eventual leadership in the global community. All of our students enroll in advanced or gifted curricula in all core subject areas. In addition to focusing on the core academic subjects, students will be offered opportunities to develop leadership skills throughout their middle school years. Our goal is to instill college bound students with a deep commitment to public service and a full awareness of their individual leadership talents. Our historic campus in San Marco with its complete \$15-million renovation, advanced technology labs, state-of-the-art TV production studio and much more, is ideally suited for our purpose.

Landon Through The Years

During their sixth grade year at Landon, students will begin exploring and developing their own leadership skills. In order to accomplish this goal, students will study Covey's *7 Habits of Highly Effective Teens*.

Moving on to the seventh grade, students will further their leadership skills within our community. Each student will participate in a class project allowing them to explore and positively impact an issue facing our community.

During their final year at Julia Landon College Prep, eighth grade students will explore how leadership can impact the global community. As part of the Leadership Seminar, students will create and present a technology-based project which highlights their selected issue and describes how the global community could more positively respond.

An Opportunity For Enrichment

Enrichment opportunities at the school include Scholar Bowl, Leadership Club, National Junior Honor Society, Seventh-Grade Duke University Talent Identification Program (TIP), Preliminary SAT (PSAT) and a full athletic program. Program continuity for students attending Julia Landon College Prep will include Darnell-Cookman School of the Medical Arts, Paxon School for Advanced Studies and Stanton College Preparatory School.
