

THE RAINES ADVANTAGE

William M. Raines High School is home to an Information Technology Academy which provides exceptional opportunities for students interested in technology and related fields.

Students are challenged with a rigorous academic program combined with high-tech, high-skilled and high-wage training opportunities. Scholarship, Internship, and on-the-job training opportunities are available for our magnet students, as well as industry certifications and dual-enrollment.

The two career pathways students may select from are:

- Business Supervision and Management
- Information Technology

Mission Statement

To inspire, prepare and provide students with exceptional opportunities for academic and real-world instruction with exposure to high-tech, high-skilled and high-wage career choices.

For more information about the Information Technology Academy, call (904) 924-3049, ext. 208 and visit www.duvalschools.org/wmrh

INFORMATION TECHNOLOGY ACADEMY

BUSINESS SUPERVISION AND MANAGEMENT

Students don't have to wait until they are employed to learn how to manage people and business resources. The Business Supervision and Management program is designed to prepare students for employment in industries such as information technology and supervision and management.

This dynamic program focuses on leadership development, human resources, types of business ownerships, cultural diversity, career development, business technology, business operations and business communications. Students will also learn and practice the four functions of management: planning, organizing, directing and controlling.

In addition to learning about business management, students will be exposed to office technology and business computer applications that will prepare them for Entrepreneur certification, Microsoft Office Specialist (MOS), Microsoft Certified Professional (MCP) and the Microsoft Certified Trainer (MCT) certification exams.

INDUSTRY CERTIFICATIONS

Students will have the opportunity to gain on-the-job training and relevant industry certifications such as:

- Microsoft Certified Application Specialist (MCAS)
- Microsoft Certified Application Professional (MCAP)
- Microsoft Office Specialist (MOS)
- Adobe Certified Associate
- A+
- Net+
- CIW

INFORMATION TECHNOLOGY

Information Technology is one of the fastest-growing industries, with an ever increasing demand for high-tech, highly skilled workers. The Information Technology (IT) program is preparing students to meet the demand. Students will learn how to use various software applications and multimedia tools, Web page design, programming languages, databases and digital media.

This program aligns relevant academic, employment and workplace standards with opportunities to partner with postsecondary institutions.
